

a soft friend

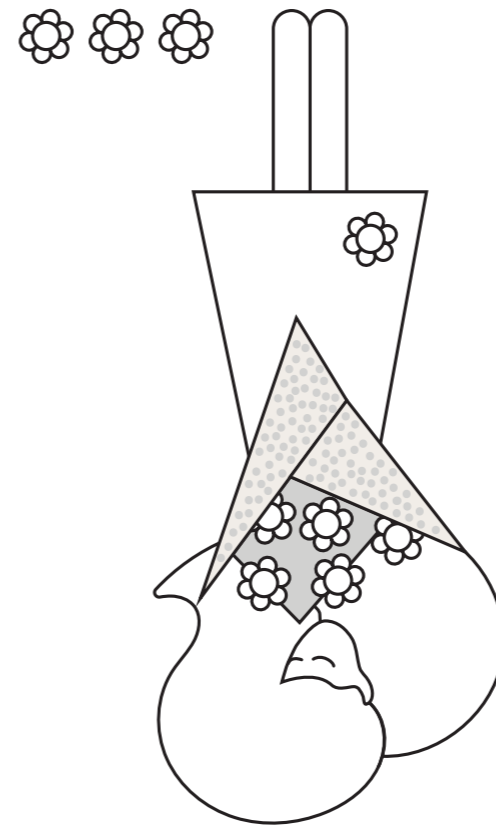

4/6

a comfortable den

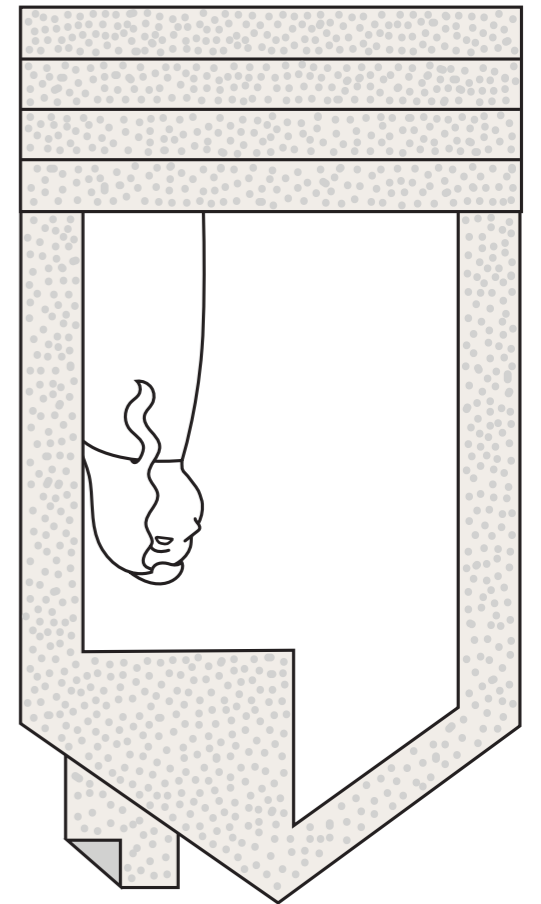

3/6

a bouquet of flowers

2/6

a safe roof

1/6

Take a **big sheet of paper**, put on some pleasant music, sit on the floor with the paper in front of you.

What can a sheet of paper become?

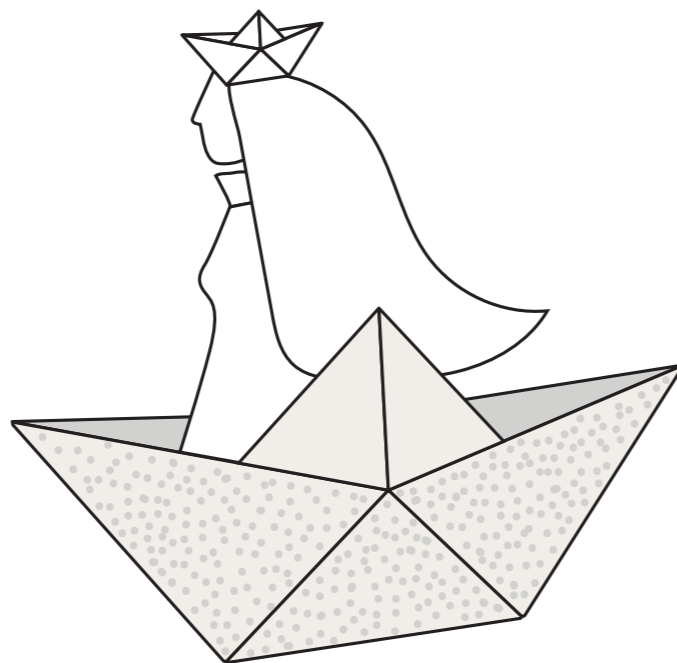

Look at the first picture in this book, then turn the page and slowly try to use it in another way.

When you're finished, take a bow.

Try again with different music.

It's also fun to do this play with your friends or relatives.

a little boat

6/6

a warm blanket

let's Pass!

Many ways
to experience
a sheet of paper

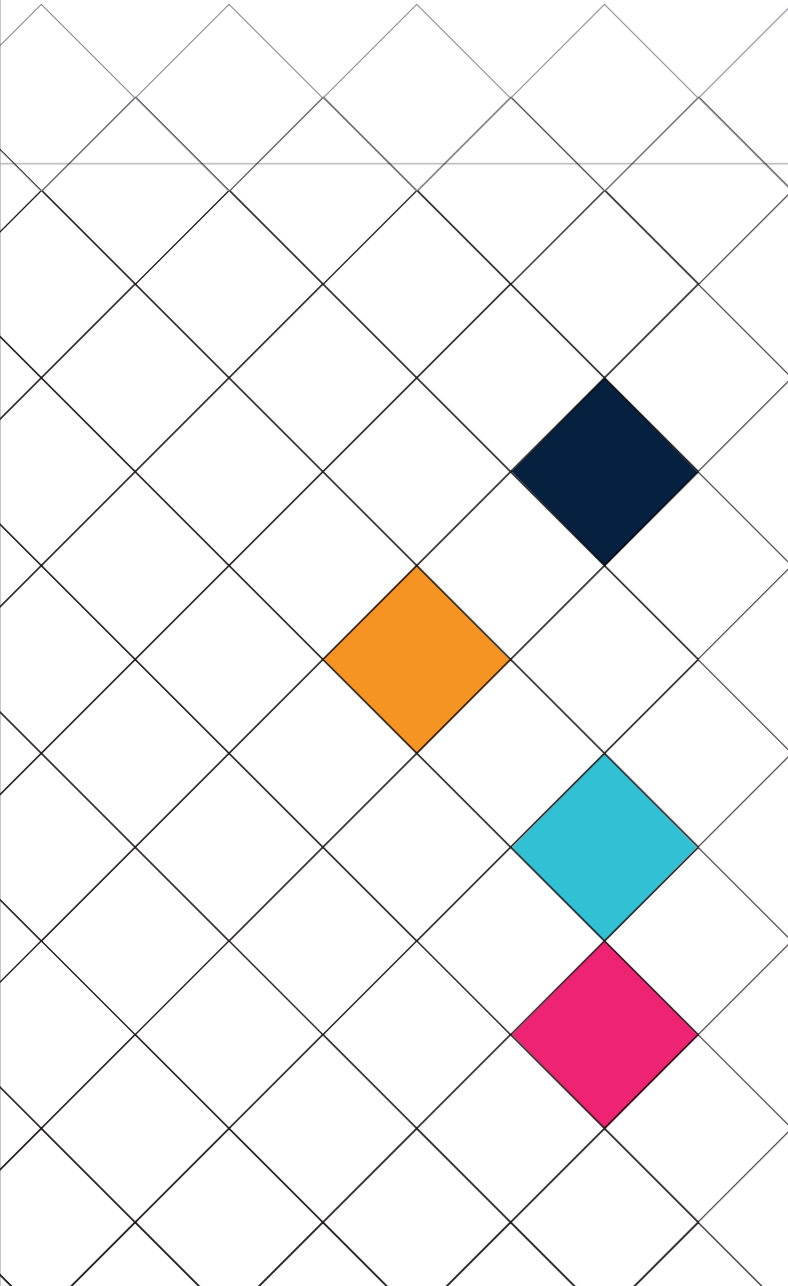

Audio description
Scan and play

Paper is the symbol of the cycle of life: it comes from the tree, from nature, takes **different forms**, and is recycled at the end of its life. Paper can be used for writing, drawing, for making money, as wrapping paper, wallpaper, kitchen paper, toilet paper, and even construction paper. But with paper, we can also dance and express ourselves.
